

Resist

Nate feat. DISL Automatic

Ayo resist, resist, resist, resist, resist
Don't give up, don't give in, only warriors persist
We're free thinking spirits that refuse to be dismissed
Society is insanity, yeah it is what it is
I'm a father, my job is to protect my kids
Come for them, I'll happily introduce you, to my fists
I'll defend my families sovereignty I don't give a damn
It's my body, my choice like... (you don't understand)
Ayo my people worldwide we ride
Behold a pale horse, we choose what goes inside
They wanna jab up the world that ain't justified
But when it comes to poverty there ain't no food to find
They wanna exclude me socially, they want power over me
Divide & conquer is what they do because we don't agree
And we will stand united together resisting globally
I do not fear death because my soul is free
While we're living on this planet lets make one thing clear
We're free spirits yo we do not live in fear
We can even taste the rebelution in the air
We are the resistance, we p p p persevere
This is our life, we don't need no ones permission
They want us divided, don't want us coexisting
We won't be coerced that is our final decision
Keep on resisting, keep on resisting
We resist with our fist in the air, lets make this crystal clear
Sovereign individuals here, we never live in fear
They want us scared because we easy to control then
But we prepared to die, because we grown men
Yeah, we stand tall & courageous
Bravery's the cure for the fear thats contagious
The fear that enslaves us, the government that plagues us
And all the propaganda that they coming withs outrageous
And the mainstream media is spreading it

Experimental gene-therapy we never getting it
Our decision is final, we say no
And if they ask why, cos' we say so
Don't need an explanation, don't need permission
Don't call it hesitation, cos' it's resistance
We reject cohesive medical tyranny
And fight to protect freedom that's ours inherently
While we're living on this planet lets make one thing clear
We're free spirits y0 we do not live in fear
We can even taste the rebelution in the air
We are the resistance, we p p p persevere
This is our life, we don't need no ones permission
They want us divided, don't want us coexisting
We won't be coerced that is our final decision
Keep on resisting, keep on resisting
While we're living on this planet lets make one thing clear
We're free spirits y0 we do not live in fear
We can even taste the rebelution in the air
We are the resistance, we p p p persevere
This is our life, we don't need no ones permission
They want us divided, don't want us coexisting
We won't be coerced that is our final decision
Keep on resisting, keep on resisting
